TEN CENTS A WEEK

AFTERMATH. GOES DEMOCRATIC

Dr. Lang Receives Many Warm Congratulations.

SOMETHING OF THE CANDIDATES. CLOOMY RETURNS FROM OTHER PARTS OF THE WORLD.

Everybody in Town Wants Some Pie—No Promises Made.

PREPARATIONS FOR A BIG RALLY.

Dr. James Lang, the successful candidate for mayor of Paducah, received informal calls at his drug-store this morning from hundreds of his enthusiastic friends.

Mr. Lang was courteous to all and modestly received the profuse congratulations tendered, but with manifestations of much gratitude towards all.

Preparations are being made for a grand rally Friday night. A large number of ardent Democrats do not like to postpone the demonstration until Friday, but it is likely that in order that complete preparations may be made for it, the rally will be on Friday evening.

Already there are scores of candidates out for the various offices, both appointment and elective, at the disposition of the administration. Some of those who, according to rumor, are candidates, are as follows:

For city clerk—F. Daugherty, Harry Tandy, W. H. Patterson, R. J. Barber, Nat H. Harris and Andy Weil, Jr.

For city treasurer—C. C. Rose.

For tax collector—George Robertson and Feudal Barnett.

For city assessor—T. J. Moore.

For post keeper—John Hughes, Harry Kellar.

For city attorney—R. T. Lightfoot, J. M. Werten, Will Hughes.

For street inspector—J. R. Cosby, G. A. Shelton, Wm. Wheels, James Eaker, W. W. Dupre.

For license inspector—P. J. Jarvis, Fred Hoy.

For market master—John Smith.

For city weigher—R. F. Williams, Henry Enders, Chas. Fell, Wm. Peal.

For wharfmaster—Saunders Fowles.

For fire chief the following are mentioned: James Woods, James Walker, Ellis Bour, Joe Washington, W. E. Augustus. Walter Ingram will apply for the place of fire chief.

For city hospital keeper Mrs. Birchett is the only applicant known so far.

Who wants the position of city physician is at present a mystery.

Mr. Feudal Barnett is tipped as a sure winner for most anything he wants. He is one of the first to start the Lang boom last winter, and has labored indefatigably ever since for the cause.

In Mechanicsburg there was a stereopticon display of the returns, which the residents greatly appreciated. Large crowds witnessed the display.

An intimate friend of Dr. Lang stated to a reporter this morning that the doctor has not promised a single place to anyone, nor has he promised one to anyone for his influence and support.

In regard to applications for positions as police officers, the same gentleman remarked, "It would be impossible to obtain a full list of them. You could come nearer to it by publishing the entire city directory."

A meeting of the committees will be held tonight and the arrangements for the rally, etc., will be completed.

Yellow Fever Checked.

New Orleans, Nov. 3.—A heavy frost last night has checked the fever here. Four new cases are reported.

Returns from Calloway.

Murray, Ky., Nov. 3.—Incomplete returns from Calloway show that Shackelford's plurality will reach 1,300 in that county. Cook, silverite nominee for Circuit Judge, carried Calloway 1,350. The county fusion silverite ticket was elected by 1,200 majority. J. McLean was elected Representative by 1,200 majority. Cook is probably elected over Breathitt, Republican.

Ballard Goes for Shackelford.

Wichita, Ky., Nov. 3.—Sixty precincts in Ballard county out of a total of ten give Bailey 100. Shackelford 600, Parker 90, Hindman 12. Wallace's vote not reported. The unreported precincts are Lovelaceville, Sandhook and Ingleside. Shackelford's plurality in the county will perhaps reach 800.

Clay County Murders.

Louisville, Nov. 3.—News reached here today of two murders in Clay county, three at Rock Castle and one at Clinton, all occurring yesterday. No particulars.

Passing the Pk.

Washington, Nov. 3.—President McKinley today appointed nineteen good fourth-class postmasters in Kentucky. It is expected that he will fill Kentucky places immediately.

The Vitro in His Face.

Mayfield, Ky., Nov. 3.—Nine precincts of Graves county, for circuit judge, give J. E. Robinson a majority of 1,185 over N. P. Moss, Commonwealth's attorney. H. J. Morris has a plurality of 1216. This includes the three precincts of Mayfield.

ember, 1896. He was taken to the county hospital, and, after an operation had been performed to locate the bullet without success, it was decided to make use of the X-ray to find it. Seventeen exposures to the rays were made. As a result of his left ear, the right side of his head has become bald.

PETTY THIEVES.

TWO TRIED AND HELD IN JUDGE SINNERS' COURT.

JOHN THOMAS, COLORED, HELD—NOT WANTED IN JACKSON, TENN.

Wm. Thomas, colored, charged with stealing clothing and two bottles of wine from Mr. George Detzel, of the Buffet, was tried before Judge Sanders today and held to answer to a charge of \$100, in default of which he was to jail.

Ed Mo. ton, colored, charged with stealing a car belonging to T. L. Marshall, was also held to answer for petty larceny.

Jesse Bent and Frank Minor, colored, were charged with a breach of the peace, but the evidence was only partially heard.

Marshall Collins received a telegram this morning from Marshal J. C. Gaston of Jackson, Tenn., stating that Thoma was not wanted in that place. It was thought he was wanted there for malicious shooting.

UNCALTED CUTTER.

Consumption New Large and At the Time Increasing.

WHERE were the Populists?

WHERE were the Republicans?

WHERE were the Reel Democrats?

WHERE were the National Democrats?

WHERE was the proud bird of victory that was supposed would be perched on our banners?

WHILE the Republican ticket was defeated at the polls it was not because the nominees were not good men, but it was caused by a combination of circumstances. As a whole it can be truthfully said that the names presented were the cream of the party, and could not be improved on. It was not the personalities, but policies that carried the election. There was not enough difference between the party receiving the largest and the one receiving the smallest number of votes to attribute the cause to the popularity of any one man.

THERE IS CRIME ON OUR POLITICAL DOOR AND IT HANGS LOW AND IN HEAVY FOLDS. WE HAVE MET THE ENEMY AND WE ARE THEIRS BY A LARGE MAJORITY. NIGHT AND BLUEHORN BOTH CAME, AND HISTORY WILL RECORD YESTERDAY AS OUR WATERLOO. WE ARE PREPARED TO RECEIVE CONDOLENCES, SYMPATHIES, REGRETS AND ALL THE LIKE, MELANCHOLY EXPRESSIONS. WE ARE SOMETHING SORROWFUL, BUT MUST NOT WEEP. IN OUR WOE WE RAISE OUR EYES TIMIDLY AND CONGRATULATE THE WINNERS, WISH LUCK TO THEM AND THEIR. WE ARE PERFECTLY WILLING THAT MANY OF OUR INCLUSIVE EXPRESSIONS MAY BE TAKEN IN THAT PARTICULAR SENSE KNOWN AS PICKWICKIAN. AFTER A COLD, WET DAY WE FIND OURSELVES IN THE GREAT ARMY OF THE LEFT AND OFFER OUR HAND IN TOKEN OF SHAREREST UNITY AND FRIENDSHIP, TO LAST ETERNALLY AND FOREVER, UNTIL THE FIRST OPPORTUNITY OCCURS FOR ANOTHER FIGHT, THEN WE SHALL BE SHARPLY INTO IT. AS WE BROWSE ON THE DREARY HILLSIDE, WHICH SOONLY CHERISHED, NOW BE COLLAPSED, EVEN AS A RUBBER BALLOON WITH A PIN HOLE (PERFORATION). "WE'LL DRINK TO BETTER DAYS."

SIPPS' LAWN MOWER.

TOO GREAT SUCCESS IN ITS TRIAL TRIP LEADS TO A RETURN TO OLD METHODS.

"Mr. Sippy," said one of his neighbors, "is not a lazy man, but he likes to experiment. He is interested in electricity, and living in the suburbs, as he does, it is natural enough that he should make an electric lawn mower.

He attached a couple of wheels to the rear of his mower to give it wheel base to carry a platform upon which the dog lay.

After a good deal of trouble, he had decided to go with it so perfectly good condition if properly cared for. If not sold it is put into a freezer or cold-storage warehouse, it is frozen. There it may be kept in perfect order for months, but when once taken out of the freezer it must be sold promptly.—N. Y. Sun.

THE fight is ended. The Sun possesses a free conscience that it did its whole duty to the party, the nominees and the full ticket. It worked faithfully and did what it thought best for the good of the party. It is with regret that we note the difference in the vote for the head of the city ticket and the average vote for the balance of it. There are also some differences in every election of minor importance; but in this election, with a party vote of 1,355, the head of the ticket ran 244 short of the party vote. This is out of the ordinary. The question which the party asks is, who is responsible for this result. It is more than probable the people know the names of the leaders who organized treasonable opposition to defeat the party and its nominees. It is not difficult to determine who were the so-called Republicans who voted for a Democratic nominee for the purpose of defeating the Republican ticket. So far as yesterday's result is concerned Republicans know who were the traitors, and they have a good memory.

DAMAGES

ASKED FOR INJURIES FROM X-RAYS
A CHICAGO PATIENT.

Chicago, Nov. 3.—In the near future the courts of Cook county will be called upon to decide a case which in all probability will prove one of the most interesting, from a legal and medical view, ever presented.

James Carey, who was so severely defaced and crippled as the result of the use of X-rays, brought suit for \$25,000 damages against the physicians who had charge of the experiment in the county hospital.

Carey was shot in the head in Sep-

Solid... Values

Gained our popularity. Solid values keep and add to it. No catch-penny schemes, no exaggerated statements, no dazzling generalities; nothing but good, sound, solid values in new, meritorious and wanted goods bring the multitudes to our store. Wise people buy here; the wiser they are about values the better we like them to come. Our goods and prices welcome the most critical inspection and comparison.

But all these are mere forecasts of orthographic perplexities compared with what now comes to us in an Indian campaign. Is the trouble on the border of Hindostan or Hindostan? April the Eleventh or Hindostan? The Eleventh or Hindostan? Are the Afghans the Afghans concerned? Is he Beloochian or Beloochian or Baloochian in danger of disaffection? Is he the fellow who stirred up the row of the Muhal of Haddah or the Muhal of Adda? Is he a disciple of the Akhoond or Akhoond or Akhoond of Swat? Is he a friend or foe of the smeer of Cabul or Cabool or Kabul? Such are the vexatious questions that crowd thick and fast upon the heels of every day's dispatches.

Nor is it to be wondered at that this is so, seeing how high authorities disagree concerning long-familiar names. We have all heard of the Sepoy mutiny, but Col. Malleson tells us it was the Sepoy mutiny. It broke out at Meerut, but at Mirat, the most hideous massacre was not at Cawnpore, but at Khanpur, and not Lucknow, but Lakhnau, was gallantly defended for 87 days. Nay, the government of India now bids us forget the good old Bundelkund and know only Bundelkund. And while Sir William Hunter's Gazetteer tells us of Poona, Col. Matheson's "History" speaks only of Puna. One writes old-fashioned Bhownuong, another Bhawnang and a third Bhavnang. And so it goes on. Only the law of permutations can tell how far—N. Y. Tribune.

The ordinary commercial package of unsalted butter contains 64 pounds. Hebrew Jobbers buy such packages of the wholesale commission merchant and break them up into ten-pound packages for sale to grocers and small dealers. In this way the butter is widely dispersed and quickly disposed of. Unsalted butter can be kept for days in perfectly good condition if properly cared for. If not sold it is put into a freezer or cold-storage warehouse, it is frozen. There it may be kept in perfect order for months, but when once taken out of the freezer it must be sold promptly.—N. Y. "John, I'm shot."
"Are you shot, Jim?"
"Yes, John, I'm pretty certain."
"Well, you are shot much?"
"Yes, the doctor says I'm bad shot."

"You don't say, Jim! Now, did he say that?"
"Yes, that's what he said."

"Did he say you'd die or git well?"
"He didn't say. Just said I was bad shot, Jim."

"Well, well! Did he say that? Look party bad. Now do you reckon he understands the nature of the case? Well, well! So you're shot at last!"

Then turning to those who were in the room he continued, with queer humor:

"This reminds me, boys, of the time me and pa went to Arkansas years ago. One day we crossed over into Missouri, me and Jim and Lige, and came on a house where a stranger lived. His brother was inside swelled up with something, and he was outside arguing with the doctor. The doctor didn't know what ailed the man.

"But doctor," he said, "you'll have to do something for him. He's mighty bad off, and has to be cured."

"But I can't do nothin' for him," replied the doctor, "cause I don't know what's the nature of his case."

"But you'll have to do something for him. He's my brother and I ain't a goin' to see him die, by G—. You'll have to give him something, no matter what it is."

"Well, I don't understand the nature of the case," said the doctor, "but I'll tell you what I'll do. I can give him something to throw him in to fits, and I'm h—l on curing fits."

—

A ludicrous incident was witnessed at the court house several days ago. A prominent citizen who is now an invalid and cannot walk without assistance from each side, was carried up to register. When he was taken in the court room and led to a seat, his son, who was on one side of him, sat him down too hard on the bench. The old gentleman's eyes flashed with ire, and with a resounding whack he brought his cane down upon the head of his luckless offspring, exclaiming, "By G— sir, have you just tried that again?"

The son got a little mad, too, but soon joined in the laughter that followed.

(Councilman Carter says it was no more than he half expected. "I have noticed," he said to a crowd in the city hall today, that always the year after a presidential election the whole country goes the other way. There are several reasons for this. One is that there are thousands of disgruntled office seekers all over the country who have it in for the new administration. Then there are people who have voted a ticket and then because the policy advocated had not been carried out during the short period of a few months, turn around and vote against the party. There are other reasons, but these are enough."

I especially recommend two routes—one down the Licking and Muskingum (starting at Newark and ending at Marietta), the other down the Scioto from Delaware to Portsmouth. The scenery is most beautiful along either river. In the lower Scioto region the mounds and earthworks can be found without difficulty as they are in plain sight from the plough.

I have been at work upon a state map, showing all the ancient burial places and fortifications of the Mound Builders. This will be not only of great scientific value, but a convenience for tourists and wheelmen as well. Not having been able to map through every county, I find my map deficient in a number of sections of the state—although I now have 4000 monuments recorded. I shall be glad to hear from local clubs or individuals as to whether there are mounds or graves in their localities. I have county and township tracings which I can mail to any one desirous to co-operate with me in this undertaking.

If persons who know of prehistoric remains, or who are willing to put down on county maps such places when hearing of them, will write me, I shall esteem it a great favor.

The election officers on the North Side of the county court house in a cold time of it counting ballots. They were engaged in the tallies from 4 p.m. until 6 o'clock this morning without a fire, and without anything but a light candle to eat. They were very glad to finish their work, as might be expected. Fourteen hours counting after eleven hours preparing the ballots for the voters is something not to arouse very pleasant feelings.

Mr. Tom Evans went to call on a friend yesterday who is suffering from a pistol shot wound. When he was there a brother of the patient, who had just heard the news, inquired in. He is quite an active character, and crippled.

His brother will be called "Jim" for short.

"Well, Jim, what's the matter?" he inquired.

The great city and county election is over. Things will not be so hot as usual. We will not have the political debate at every meal. Business men can go to their business, preachers to their pulpits, and all can get ready to doff our hats to the lucky candidates. A pleasant smile and long shake of the hand is over all. Let all of us shake hands across the bloody sands. W. E. Glover.

MR. J. D. TANDY.

Death of a Prominent Citizen
of Hopkinsville.

An Uncle of Mr. H. G. Tandy, of
the City.

Mr. John D. Tandy, a venerable and prominent citizen of Hopkinsville, died yesterday morning at the residence of his son, Mr. William T. Tandy, on Sixteenth street.

The deceased had lived longer than the allotted period of human existence, says the New Era, and the many years of his life were crowded with good deeds. He was held in high esteem by everyone. His character was above reproach and his career was without stain. Few men had as many friends; no man had less enemies.

Mr. Tandy's health had been extremely bad for a long time, and for several months it had been known that the end was rapidly approaching. He passed peacefully away at 8 o'clock yesterday morning.

The deceased was a native of this county. He was born near Hopkinsville November 10, 1819. During the greater part of his active life he was engaged in the farming business, out of which he made a comfortable fortune, and at one time was quite wealthy. He lost most of his property, however, by unfortunate investments. He was first married to a daughter of Edward J. Roberts, several years after her death he married Miss Faustine Howell. Four sons were the result of this union—Messrs. W. L. Tandy, John D. Tandy, Jr., H. W. Tandy and Edward Tandy. The deceased was an uncle of Mr. Harry G. Tandy, of this city.
